DATI PER L'ANALISI DELLA CONGIUNTURA

Manuskript afsluttet den 26. april 1979

Manuscript completed 26 April 1979

Manoscritto terminato il 26 aprile 1979

**Arbejdsløshed : mindre nedgang i marts måned**

Siden slutningen af februar 1979 er antallet af arbejdsløse i Fællesskabet angivet i bruttotal faldet med 330 000 og udgjorde således ved udgangen af marts 1979 6,15 mio., hvorved de arbejdsløses andel af den erhvervsaktive del af befolkningen på én måned faldt fra 6,0% til 5,7%. Omfanget af denne nedgang er i væsentlig grad sæsonbetinget. I sæsonkorrigerede tal er nedgangen således kun 0,7%. Det samlede resultat omfatter dels en nedgang (Forbundsrepublikken Tyskland, Italien, Luxembourg, Det forenede Kongerige, Danmark), dels en langsommere stigning (Frankrig, Belgien) i forhold til forrige måned.

**Industriproduktionen: aftagende stigning i januar 1979**

I forhold til januar 1978 er industriproduktionen i januar 1979 steget med 2,5%. I november og december 1978 var stigningen i forhold til de samme måneder i 1977 henholdsvis 6,3% og 4,1%. Det sæsonkorrigerede indeks viser på kort sigt den samme vigende tendens i stigningstakten for industriproduktionen i januar 1979. Denne nedgang skyldes hovedsagelig de ugunstige udviklingstendenser på kort sigt i produktionen af investeringsgoder og i mindre omfang i mellemproduktindustrien. Denne udvikling kan i hvert fald i et vist omfang tilskrives konflikterne på arbejdsmarkedet eller følgerne heraf i Tyskland og i Det forenede Kongerige.

**Energi: Stigning i Fællesskabets produktion**

Fællesskabets produktion af råolie og destillater udgjorde 63 millioner tons i 1978 og dermed en stigning på 33% i forhold til 1977, hvilket udelukkende skyldes de forøgede aktiviteter i Nordsøen. Denne produktion udgør kun 12% af den raffinerede olie. Der har kunnet registreres et mindre fald i mængden af raffineret olie. Den gennemsnitlige udnyttelse af den disponible kapacitet i Fællesskabet er stadig beskeden til trods for, at raffineringkapaciteten er blevet nedsat med 20 millioner tons.

**Samhandelen inden for fællesskabet: jævn stigning for alle varegrupper**

Samhandelen mellem medlemsstaterne udgjorde (udregnet på basis af importen) 183,8 milliarder ERE i 1978, fordelt på følgende produkter: færdigvarer 33%, maskiner og transportmateriel 29,5%, fødevarer 14,2%, kemiske produkter 10,9%, olieprodukter 6,8% og råvarer 4,4%. Med en samlet stigning på 9,4% i forhold til 1977 er det handelen med fødevarer, som er steget mest (11,4%) efterfulgt af færdigvarer (+10,7%) og maskiner og transportmateriel (+10,3%). En stigning, der ligger under gennemsnittet, registreredes for kemiske produkter (+7,6%), råvarer (+2,7%) og olieprodukter (+7,4%).

**Fællesskabets samhandel med tredjelande: stigningen i importen af industriprodukter og nedgang i importen af andre produkter**

Fællesskabets import fra tredjelande, som beløb sig til 179,1 milliarder ERE i 1978 (+4,5% i forhold til 1977), udviser et fald, for så vidt angår olieprodukter (-5,3%), råvarer (-4,3%) og fødevarer (-3,5%). Disse produkters andel i den samlede import var henholdsvis 26,0%, 12,3% og 12,9%. Til gengæld steg importen af industriprodukter væsentligt: maskiner og transportmateriel +20,5%, færdigvarer +11,7% og kemiske produkter +11,3%; disse produkters andel i den samlede import var henholdsvis 16,5%, 24,5% og 4,9%, hvilket er foruroligende.

Fællesskabets eksport til tredjelande beløb sig i 1978 til 174,0 milliarder ERE (+6% i forhold til 1977) og viser en stigende tendens for alle disse varegrupper. Den største stigning registreres i salget af færdigvarer (+11,8%), som nu udgør 31,6% af den samlede eksport. Med en andel på 41,5% af den samlede eksport er maskiner og transportmateriel den kategori af produkter, som eksporteres mest, selv om den værdimæssige stigning kun har været på 2,1%. De kemiske produkters andel (+6,0%) er stadig 11,7%, således at industriprodukterne udgør 84,8% af Fællesskabets eksport til tredjelande. Den resterende del af eksporten fordeler sig med 6,6% for fødevarer (+10,3%), 4,3% for olieprodukter (+1,0%) og 2,3% for råvarer (+2,5%).

**Forbrugerpriser: Fortsat kraftig stigning**

Forbrugerprisindekset for hele Fællesskabet fortsatte sin betydelige stigning. Medregnet skønnene for visse lande vil stigningen fra februar til marts 1979 blive af størrelsesordenen 0,8%, hvilket giver en samlet stigning på årsbasis på 8,4% — det største tal de sidste 15 måneder. Italien og Nederlandene synes at have store stigninger (1% eller derover), mens Forbundsrepublikken Tyskland, Frankrig, Det forenede Kongerige og Danmark havde stigninger fra 0,7 til 0,8%. Kun i Belgien og Luxembourg var stigningerne beskeden (0,1 og 0,2%).

**Penge og finanser: ophør af valutaparitet mellem Irland og Det forenede Kongerige**

Til iværksættelse af det europæiske monetære system overdrager medlemslandenes centralbanker i øjeblikket 20% af deres beholdninger af guld og dollars til EFMS i form af SWAP-kreditter, hvilket udgør en startkapital på ca. 34 milliarder dollars. De største bidrag kommer fra Tyskland (35%), Frankrig (18%) og Italien (16%). Det engelske pund steg i forhold til de andre fællesskabsvalutaer, hvilket hovedsagelig skyldes de olieprisforhøjelser, som blev besluttet af OPEC-landene i marts måned. Det nye centralkurssystem blev således afprøvet i slutningen af marts, da det irske pund, som fulgte det engelske pund, steg indtil interventionspunktet. Dette bevirkede, at Irland for første gang mistede sin valutaparitet med Det forenede Kongerige, hvorved den et halvt århundrede lange tilknytning mellem de to valutaer blev bragt til ophør. For at reducere presset på det engelske pund nedsatte den engelske centralbank i begyndelsen af april den officielle diskonto med 1%, hvorved den nu er på 12%.

## Unemployment: slight drop in March

The number of unemployed in the Community dropped before adjustment for seasonal variations by 330 000 to 6.15 Mio between the end of February 1979 and the end of March 1979, the proportion of the working population which they represent having thus decreased in one month from 6.0 to 5.7%.

The size of this decrease is largely due to seasonal factors. The drop in the seasonally adjusted figures is only 0.7%.

The overall result reflects either a drop (Federal Republic of Germany, Italy, Luxembourg, United Kingdom, Denmark) or a slowing of the rate of increase (France, Belgium) in comparison with the preceding month.

## Industrial production: decline in growth rate in January 1979

Industrial production in January 1979 was 2.5% higher than in January 1978. In November and December 1978, the increase in comparison with the same months of 1977 was 6.3 and 4.1% respectively. The short-term trend of the seasonally adjusted index shows the same reduction in the rate of growth of industrial production in January 1979. The slower rate of expansion is largely the result of unfavourable short-term trends in the capital goods and intermediate products industries. This phenomenon is certainly due, at least in part, to social conflicts or their consequences in Germany and the United Kingdom.

## Energy: increase in Community production

Community production of crude oil and condensates was 63 million tonnes in 1978, an increase of 33% as compared with 1977. This is entirely due to increased activity in the North Sea. This quantity represents only 12% of the crude oil throughput of refineries.

There was a slight drop in refinery throughput. The average utilization factor of the available capacity in the Community remains low despite a reduction in refining capacity of 20 million tonnes.

## Intra-Community Trade: steady growth in all product sections

Trade between the Member States reached a level of 183.8 Mrd EUA in 1978 and was made up as follows (basis: imports): manufactured goods 33.0%, machinery and transport equipment 29.5%, food, beverages and tobacco 14.2%, chemicals 10.9%, fuel products 6.8% and raw materials 4.4%.

With a total growth of 9.4% as against 1977 trade in food, beverages and tobacco increased at the highest rate (+11.4%) followed by manufactured goods (+10.7%) and machinery and transport equipment (+10.3%). Below the average growth was recorded for chemicals (+7.6%), raw materials (+2.7%) and fuel products (+1.4%).

## Community External Trade: increased imports of industrial goods and decrease for others

The EC's imports from third countries, which stood at a level of 179.1 Mrd EUA in 1978 (+4.5% as against 1977), were marked by a decrease in purchases of fuel products (-5.3%), raw materials (-4.3%) and food, beverages and tobacco (-3.5%). The share of these products in total imports was 26.0%, 12.3% and 12.9% respectively. Against this, imports of industrialized goods increased substantially: machinery and transport equipment +20.5%, manufactured goods +11.7% and chemicals +11.3%; their shares in total imports being 16.5%, 24.5% and 4.9% respectively, an increase which is disquieting.

The EC's exports to third countries amounted in 1978 to 174.0 Mrd EUA (+6% as against 1977) and increased in all product sections. The strongest increase was reported in sales of manufactured goods (+11.8%) which reached a share of 31.6% of total exports. With a share of 41.5%, machinery and transport equipment was again the main export product although sales only grew by 2.1% in value. The share of chemicals (+6.0%) stayed at 11.7% so that industrial products accounted for 84.8% of EC's exports to third countries. The remainder comprised: 6.6% food, beverages and tobacco (+10.3%), 4.1% fuel products (+1.0%) and 2.3% raw materials (+2.5%).

## Prices: Sharp rise continues

The consumer price index for the EC as a whole continued to increase significantly. Including estimates for some countries the rise from February to March 1979 should be 0.8%, which brings the increase over the year to 8.4%, the highest for 15 months.

High increases were recorded in Italy and the Netherlands (1% or more), meanwhile Germany, France, the United Kingdom and Denmark showed increases from 0.7 to 0.8%.

Only in Belgium and Luxembourg were prices rather low (0.1 and 0.2%).

## Finance: End of exchange-rate parity between Ireland and United Kingdom

As a consequence of the commencement of the European Monetary System, the central banks of the EC member-countries are transferring 20% of their gold and dollar holdings to the FECOM on a swap basis, which represents an initial capital of approximately \$ 34 mrd. for the fund. The biggest contributors are Germany (35%), France (18%) and Italy (16%). Partly due to the OPEC oil price rises announced in March, the pound sterling appreciated relative to the other EC currencies. As a result, the new parity-grid system was tested at the end of March when the Irish punt moved to its upper intervention limits in line with sterling. This caused Ireland to loosen its exchange-rate parity with the UK for the first time, after half a century of the two currencies being linked. To reduce the upward pressure on sterling, the Bank of England lowered minimum lending rate by 1% to 12% in early April.

**Disoccupazione: lieve diminuzione in marzo**

Il numero dei disoccupati nelle Comunità è diminuito, da fine febbraio 1979, di 330 000 unità (dati grezzi), ammontando a fine marzo a 6,15 milioni di persone: la quota dei disoccupati sulla popolazione attiva è così scesa, nel giro di un mese, dal 6,0 al 5,7%.

L'entità di questa diminuzione corrisponde tuttavia in gran parte ad un fenomeno stagionale: infatti, sulla base dei dati corretti delle variazioni stagionali, la diminuzione non è più che dello 0,7%.

A tale risultato globale concorrono una diminuzione effettiva in alcuni paesi (Repubblica federale di Germania, Italia, Lussemburgo, Regno Unito, Danimarca) e, in altri (Francia, Belgio), un aumento rallentato, rispetto al mese precedente.

**Produzione industriale: rallentamento della crescita nel gennaio 1979**

Nel gennaio del 1979 la produzione industriale risulta aumentata del 2,5% rispetto al gennaio dello scorso anno; nei mesi di novembre e di dicembre del 1978 l'aumento rispetto ai mesi corrispondenti del 1977 era rispettivamente del 6,3 e del 4,1%. La tendenza a breve termine dell'indice corretto delle variazioni stagionali accusa, nel gennaio del 1979, lo stesso rallentamento del ritmo di sviluppo della produzione industriale, dovuto essenzialmente a tendenze congiunturali sfavorevoli nelle industrie dei beni d'investimento e, in minor misura, dei beni intermedi. Quest'evoluzione dipende sicuramente, almeno in parte, dai conflitti sociali verificatisi in Germania e nel Regno Unito o dalle loro conseguenze.

**Energia: aumento della produzione comunitaria**

La produzione comunitaria di petrolio greggi e di condensati ha raggiunto nel 1978 il volume di 63 milioni di tonnellate, con un aumento del 33% rispetto al 1977: la totalità di questo aumento va attribuita all'espansione dell'attività nel Mare del Nord. Tale produzione non rappresenta comunque che il 12% del greggio trattato in raffineria.

Le quantità di petrolio greggio trattato nelle raffinerie sono diminuite lievemente. Sebbene le capacità di raffinazione abbiano subito una contrazione di 20 milioni di tonnellate, il tasso di utilizzazione delle capacità disponibili nella Comunità resta mediamente basso.

**Commercio intracomunitario: aumento regolare per tutte le categorie di prodotti**

Il commercio tra gli Stati membri, calcolato sulla base delle importazioni, ha raggiunto nel 1978 la cifra di 183,8 miliardi di UCE, così ripartite per prodotti: prodotti manifatturati 33%, macchine e mezzi di trasporto 29,5%, prodotti alimentari 14,2%, prodotti chimici 10,9%, prodotti petroliferi 6,8% e materie prime 4,4%.

Nel quadro di un incremento globale del 9,4% rispetto al 1977, lo sviluppo più sensibile è stato quello degli scambi di prodotti alimentari (+11,4%), seguiti da quelli di prodotti manifatturati (+10,7%) e di macchine e mezzi di trasporto (+10,3%). Un aumento inferiore alla media è stato invece registrato per i prodotti chimici (+7,6%), le materie prime (+2,7%) ed i prodotti petroliferi (+7,4%).

**Commercio estero della Comunità: aumento delle importazioni di prodotti industriali e flessione per gli altri prodotti**

Le importazioni della Comunità dai paesi terzi, pari a 179,1 miliardi di UCE nel 1978 (+4,5% rispetto al 1977), sono caratterizzate da una flessione negli acquisti di prodotti petroliferi (-5,3%), di materie prime (-4,3%) e di prodotti alimentari (-3,5%). La quota di questi prodotti nel totale delle importazioni è rispettivamente del 26,0%, del 12,3% e del 12,9%. Sono invece aumentate sensibilmente le importazioni di prodotti industriali: macchine e mezzi di trasporto +20,5%, prodotti manifatturati +11,7% e prodotti chimici +11,3%; il fenomeno è preoccupante, tenuto conto della quota di questi gruppi di prodotti sul totale delle importazioni (rispettivamente il 16,5%, il 24,5% e il 4,9%).

Le esportazioni della Comunità verso i paesi terzi, pari a 174,0 miliardi di UCE nel 1978 (+6% rispetto al 1977), risultano in aumento per tutte le categorie di prodotti. L'aumento più sensibile si osserva per le vendite di prodotti manifatturati (+11,8%), che rappresentano ormai il 31,6% del totale delle esportazioni. La principale categoria di prodotti esportati restano le macchine e i mezzi di trasporto che, sebbene l'aumento delle vendite non sia stato che del 2,1% in valore, rappresentano una quota del 41,5% nelle esportazioni totali. La quota dei prodotti chimici (+6,0%) resta dell'11,7%, cosicché i prodotti industriali costituiscono l'84,8% delle esportazioni della Comunità verso i paesi terzi. La parte rimanente delle esportazioni della Comunità è rappresentata, in particolare, dai prodotti alimentari (+10,3%), la cui quota è del 6,6%, dai prodotti petroliferi (+1,0%), con una quota del 4,3% e dalle materie prime (+2,5%), con una quota del 2,3%.

**Prezzi: l'aumento continua**

L'indice dei prezzi al consumo per la CE nel suo insieme ha continuato ad aumentare sensibilmente.

Tenendo conto delle stime effettuate per qualche paese, l'aumento da Febbraio a Marzo è dello 0,8%, il che porta a 8,4% l'aumento nel corso degli ultimi 12 mesi, e dunque il più elevato da 15 mesi a questa parte. Gli aumenti più sensibili sembrano riguardare l'Italia ed i Paesi Bassi (1% o più), mentre Germania, Francia, Regno Unito e Danimarca hanno registrato aumenti dell'ordine di 0,7 o 0,8%.

Solo in Belgio ed in Lussemburgo gli aumenti sono stati piuttosto contenuti (0,1 e 0,2%).

**Finanze: fine della parità monetaria tra l'Irlanda e il Regno Unito**

Per dare attuazione al Sistema monetario europeo, le Banche centrali dei paesi membri della Comunità trasferiscono attualmente al FECOM, in forma di crediti SWAP, il 20% dei loro attivi in oro e in dollari; ciò rappresenta un capitale iniziale di circa 34 miliardi di dollari. I maggiori contributi sono quelli della Germania (35%), della Francia (18%) e dell'Italia (16%). La lira sterlina si è rivalutata rispetto alle altre valute comunitarie, in gran parte per gli aumenti dei prezzi del petrolio decisi dall'OPEP nel mese di marzo: il nuovo sistema di tassi-perno è stato così messo alla prova alla fine di marzo, quando la sterlina irlandese, seguendo la lira sterlina, è salita fino al livello limite di intervento. Questo fatto ha provocato per la prima volta la rottura della parità della moneta dell'Irlanda con quella del Regno Unito, mettendo così fine a un mezzo secolo di equivalenza fra le due sterline. Per ridurre la pressione all'aumento sulla sterlina inglese, all'inizio di aprile la Banca d'Inghilterra ha ridotto di un punto il tasso ufficiale di sconto, che è attualmente del 12%.

Denne publikation omfatter to dele: den ene indeholder »fællesskabstabeller« og den anden »tabeller efter lande«.

I »fællesskabstabellerne« er samlet de vigtigste indikatorer for Fællesskabets og for hver medlemsstats økonomiske udvikling på kort sigt, uddybet med nogle strukturelle oplysninger for året 1975. Denne del, som skal muliggøre sammenligninger mellem landene, indeholder der for kun af EUROSTAT harmoniserede tal, på grundlag af fælles kriterier, hvilket forklarer visse uoverensstemmelser med de nationale tal.

Rækkerne er korrigerede for sæsonvariationer ved hjælp af EUROSTAT's »Dainties«-metode. **De mest aktuelle tal er foreløbige og i visse tilfælde direkte skønnede af EUROSTAT.**

Som indikator for verdenskonjunkturudviklingen indeholder »fællesskabstabellerne« en søjle for USA.

I »tabellerne efter lande« er for hvert land udvalgt de for det pågældende land mest anvendte konjunkturrelle indikatorer; det drejer sig om nationale rækker, i overensstemmelse med nationale kriterier og sæsonkorrigerede efter nationale metoder. I denne del er der ud

over Fællesskabets ni medlemslande medtaget kandidatlandene Spanien, Grækenland og Portugal, såvel som USA og Japan.

For alle rækkerne findes de historiske tal (årlige, kvartals- og måneds-tal) i EUROSTAT's databank CRONOS. Almindeligvis går tallene tilbage til 1960, og kan oplyses på anmodning.

Denne publikation indeholder kun et yderst minimalt antal metodologiske bemærkninger. Oplysninger om definitioner, metoder, fællesskabstilpasninger og kilder for hver enkelt række vil blive givet i en specialudgave af »EUROSTATISTIK«, hvori de statistiske angivelser definitioner, metoder, tilpasninger og kilder vil blive beskrevet.

Der udkommer to udgaver af »EUROSTATISTIK« hver måned. Den ene affattet på dansk, engelsk og italiensk leveres til trykning den fjerde tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Den anden affattet på tysk, fransk og nederlandsk leveres til trykning den anden tirsdag hver måned, og vil kunne fås i hovedstæderne den følgende mandag. Hver udgave indeholder de mest aktuelle tal til disposition den dag leveringen til trykning finder sted.

## PREFACE

EN

This bulletin is in two parts: 'Community Tables' and 'Country Tables'.

The Community Tables contain the main indicators useful for following short-term economic developments in the Community as a whole and in the Member States, supplemented by a certain amount of structural data relating to 1975. This part of the bulletin is intended to make possible real comparisons between countries and therefore only contains data which has been harmonized by EUROSTAT on the basis of common criteria, this explains many of the differences from national series.

Seasonal adjustment of the series has been done with EUROSTAT's own method, 'Dainties'. **The most recent data are provisional and in some cases estimated by EUROSTAT.**

Finally the Community Tables include a column for the USA as an indicator of changes in the world economy.

The Country Tables contain a selection of the economic indicators most often used in each country. They are national series based on

the definitions of the country concerned and seasonally adjusted by the country. In addition to the nine Community countries this section includes the three candidate countries (Spain, Greece and Portugal) the USA and Japan.

For all series, historical data (annual, quarterly or monthly) is available in EUROSTAT's CRONOS data bank, going back in most cases to 1960. This can be supplied on request.

This publication contains the absolute minimum of methodological notes. Details of definitions, methods, Community adjustments and sources of each series will be given in a special edition of 'Eurostatistics'.

Two versions of 'EUROSTATISTICS' come out every month. The first in Danish, English and Italian goes to the printers the fourth Tuesday of the month and will be distributed in the national capitals the following Monday. The second in German, French and Dutch goes to the printers the second Tuesday of the month and will be distributed in the national capitals the following Monday. Each version will contain the latest figures available when it went to press.

## AVVERTENZA

IT

Il presente bollettino consta di 2 parti: l'una ha per oggetto alcune « tavole comunitarie », l'altra riguarda alcune « tavole per paese ».

Nelle tavole « comunitarie » si trovano riuniti i principali indicatori che consentono di seguire l'evoluzione di breve periodo dell'economia comunitaria nel suo complesso e in ogni singolo Stato membro, completati da alcuni dati strutturali relativi al 1975. Questa parte, che si prefigge di consentire di stabilire confronti reali fra paesi, contiene soltanto dati armonizzati dall'EUROSTAT in base a criteri comuni, il che spiega l'esistenza di certe differenze rispetto ai dati nazionali.

Le variazioni stagionali delle serie sono eliminate con il metodo « Dainties » dell'EUROSTAT. **I dati più recenti sono provvisori e, a volte direttamente stimati da EUROSTAT.**

Nelle tavole comunitarie figura una colonna relativa agli Stati Uniti d'America a titolo di indicatore dell'evoluzione della congiuntura mondiale.

Nelle « tavole per paesi » si riporta una selezione degli indicatori congiunturali più correntemente adoperati in ogni paese; si tratta di serie nazionali, corrispondenti ai criteri nazionali e « destagionaliz-

zate » per mezzo dei metodi nazionali. In questa parte sono presi in considerazione oltre ai 9 paesi membri della Comunità, i paesi candidati all'adesione: Grecia, Portogallo, Spagna, nonché gli Stati Uniti d'America e il Giappone.

Per tutte le serie, presso il sistema CRONOS dell'EUROSTAT sono disponibili dati storici (annui, trimestrali o mensili) risalenti in generale al 1960, i quali possono essere forniti su richiesta.

La presente pubblicazione contiene soltanto annotazioni metodologiche ridotte allo stretto minimo. Le informazioni relative alle definizioni, ai metodi, agli aggiornamenti comunitari e alle fonti di ogni serie saranno riportate in un fascicolo speciale (ad hoc) di EUROSTATISTICHE avente per oggetto le definizioni, i metodi, gli aggiornamenti e le fonti dei dati statistici.

Ogni mese vengono pubblicate due versioni di « EUROSTATISTICHE ». La prima redatta in danese, inglese e italiano, che va in stampa il 4° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo; la seconda redatta in tedesco, francese e olandese, che va in stampa il 2° martedì di ogni mese, sarà diffusa nelle capitali il lunedì successivo. Ogni versione riporta le ultime cifre disponibili il giorno della stampa.

## ARTICOLO

83

## DI RECENTE PUBBLICAZIONE

89

(1) Alcuni dati più dettagliati per branca sono riportati nel bollettino « Indicatori congiunturali dell'industria ».

(2) I dati contenuti in questa parte del bollettino rappresentano i risultati dell'indagine sulla congiuntura presso i capi di impresa delle Comunità. Alcuni dati più particolari figurano in « Economia europea ».

(3) Alcuni dati del commercio estero più dettagliati ed espressi in UCE sono riportati nel « Bollettino mensile del commercio estero ».

DE

Die deutsche Fassung dieses Bulletins wird am zweiten Dienstag jeden Monats in Druck gegeben.

FR

La version française de ce bulletin est mise sous presse le second mardi de chaque mois.

NL

De Nederlandse versie van dit bulletin gaat de tweede dinsdag van elke maand ter perse.

## SYMBOLS AND ABBREVIATIONS

### SEGNI E ABBREVIAZIONI CONVENZIONALI

— Nul  
**0** Mindre end det halve af den anvendte enhed  
 : Oplysning foreligger ikke  
**1-4** 1 til 4  
**6+8** 6 og 8  
 % Procent  
**%, T4/TO** Procentvis stigning for ét kvartal i forhold til samme kvartal året før  
  
**%, T12/TO** Procentvis stigning for én måned i forhold til samme måned året før  
  
**%, Saldo** Saldo for positive svar (stigning, forbedring af situationen) og negative svar (fald, forværring af situationen) fra konjunkturundersøgelsen hos virksomhedsledere i Fællesskabet  
  
 \* Sæsonkorrigeret (tabeller efter lande)  
**1975 = 100** Basisår  
**EUR 9 = 100** Procentvis tal i forhold til Fællesskabet (= 100)  
**Mio** Million  
**Mrd** Milliard  
**t** Metrisk ton  
**TOE** Ton råolieækvivalent  
**GWh** Gigawatttime = 10<sup>6</sup> kWh  
**M3** Kubikmeter  
**DM** Tyske mark  
**FF** Franske francs  
**LIT** Italienske lire  
**HFL** Gylden  
**BFR** Belgiske francs  
**LFR** Luxembourgiske francs  
**UKL** Pund sterling  
**IRL** Irske pund  
**DKR** Danske kroner  
**USD** US-dollars  
**ERE** Europæisk regningsenhed  
**SDR** Særlige trækningsrettigheder  
**EF** Det europæiske Fællesskab  
**EUROSTAT** De europæiske Fællesskabers statistiske Kontor  
**EUR 9** EF-medlemsstaterne i alt  
  
**ACP** Lande i Afrika, Karibien og Stillehavet i henhold til Lomé-konventionen  
**ENS** Europæisk nationalregnskabssystem  
**NACE** Systematisk fortegnelse over økonomiske aktiviteter i De europæiske Fællesskaber  
**SITC** Standard International Trade Classification

— Nil  
**0** Data less than half the unit used  
 : No data available  
**1-4** from 1 to 4  
**6+8** 6 and 8  
 % Per cent  
**%, T4/TO** Percentage increase on the corresponding quarter of the previous year  
  
**%, T12/TO** Percentage increase on the corresponding month of the previous year  
  
**%, Balance** Balance between positive replies (increase, improvement in the situation) and negative replies (reduction, worsening of the situation) in the short-term trends enquiry conducted among heads of enterprises in the Community.  
 \* Seasonally adjusted (Tables by country)  
**1975 = 100** Reference year  
**EUR 9 = 100** Data for countries expressed as a percentage of the Community total  
**Mio** Million  
**Mrd** Thousand million  
**t** metric tonne  
**TOE** Tonnes of oil equivalent  
**GWh** Gigawatt hour (= 10<sup>6</sup> kWh)  
**M3** Cubic metre  
**DM** Deutsche Mark  
**FF** French franc  
**LIT** Italian lire  
**HFL** Guilder  
**BFR** Belgian franc  
**LFR** Luxembourg franc  
**UKL** Pound sterling  
**IRL** Irish pound  
**DKR** Danish crown  
**USD** US dollar  
**EUA** European unit of account  
**SDR** Special Drawing Rights  
**EC** European Communities  
**EUROSTAT** Statistical Office of the European Communities  
**EUR 9** Total of the member countries of the EC  
**ACP** African, Caribbean and Pacific countries of the Lomé Convention  
  
**ESA** European System of Integrated Economic Accounts  
**NACE** General Industrial Classification of Economic Activities within the European Communities  
**SITC** Standard International Trade Classification

— Il fenomeno non esiste  
**0** Dato inferiore alla metà dell'unità indicata  
 : Dato non disponibile  
**1-4** Da 1 a 4  
**6+8** 6 e 8  
 % Percentuale  
**%, T4/TO** Incremento in percentuale di un trimestre rispetto a quello corrispondente dell'anno precedente  
  
**%, T12/TO** Incremento in percentuale di un mese rispetto al mese corrispondente dell'anno precedente  
  
**%, Saldo** Saldo fra le risposte positive (incremento, miglioramento della situazione) e le risposte negative (diminuzione, deterioramento della situazione) registrate nell'indagine congiunturale eseguita presso gli imprenditori della Comunità  
 \* Destagionalizzato (tavole per paese)  
**1975 = 100** Anno di base  
**EUR 9 = 100** Dati dei paesi espressi in percentuale della Comunità (= 100)  
**Mio** Milione  
**Mrd** Miliardo  
**t** Tonnellata metrica  
**TEP** Tonnellata equivalente petrolio  
**GWh** Gigawattora = 10<sup>6</sup> kWh  
**M3** Metro cubo  
**DM** Marco tedesco  
**FF** Franco francese  
**LIT** Lira italiana  
**HFL** Fiorino  
**BFR** Franco belga  
**LFR** Franco lussemburghese  
**UKL** Lira sterlina  
**IRL** Sterlina irlandese  
**DKR** Corona danese  
**USD** Dollaro USA  
**(UCE)** Unità di conto europea  
**(DSP)** Diritti speciali di prelievo  
**CE** Comunità europee  
**EUROSTAT** Istituto statistico delle Comunità europee  
**EUR 9** Totale dei paesi membri della CE  
  
**ACP** Stati d'Africa, dei Caraibi e del Pacifico — Convenzione di Lomé  
  
**SEC** Sistema europeo di conti economici integrati  
**NACE** Nomenclatura generale delle attività economiche nelle Comunità europee  
**CTCI** Classificazione tipo per il commercio internazionale

STRUCTURE OF REGISTERED UNEMPLOYMENT  
IN THE COMMUNITY IN 1978

Discussion of unemployment problems — which affected 5.6% of the civilian working population in the Community in 1978 — is often restricted to information on the total number of persons registered with public employment offices and to the serious situation with regard to women and young persons.

Public employment offices, however, do compile a certain amount of additional information which provides a clearer picture of those who are unable to find employment. An attempt will be made in the present document to provide a synopsis of this information for

1978. It should, however, be noted that the work on standardization of the national series normally used for rapid information on unemployment trends has not yet led to satisfactory uniformity in the survey dates nor in the classifications used.

With regard to the age of unemployed persons, the following analysis will thus necessarily relate to different reference dates in the various countries, all these dates being towards the end of 1978. No breakdown of registered unemployment by age is available for Italy and Ireland.

Each Member State uses its own nomenclature of occupations. Any conclusions must therefore be framed in general terms or limited to individual countries. The last reference date for the data used is generally October 1978. The data for Italy relate to May (latest available data).

1. GENERAL UNEMPLOYMENT SITUATION

One may briefly note by way of introduction that in 1978 the

average number of unemployed registered with public employment offices in the Community was almost 6 million. This figure was over 200 000 (3.9%) higher than in 1977, though the increase was less marked than in previous years. In 1978, unemployment decreased in comparison with 1977 in Ireland, the Federal Republic of Germany, the Netherlands and the United Kingdom.

	p. 1978	5.1	7.3	9.1	5.1*	13.9	1.2*	4.3	6.5*	7.0	6.5*

While the number of male unemployed scarcely changed in 1978 as compared with 1977 (+1.3%), the number of unemployed women seeking employment through the labour exchanges continued to show a quite substantial increase in the Community as a whole (+7.6%). Only in Ireland (-4.6%) and the Federal Republic of Germany (-1.2%) was there a drop in the number of female unemployed.

In 1978 the proportion of total registered unemployment accounted for by women was almost 43 % for the Community as a whole, the percentage for certain countries such as Belgium, France and the Federal Republic of Germany being well above this Community average.

## 2. UNEMPLOYED FOREIGN NATIONALS

In the Federal Republic of Germany and France about 10% of the registered unemployed at the end of 1978 were nationals of other countries; this proportion was 14% in Belgium and 7% in the

Netherlands. In these four countries — the only States which possess statistics on the subject — the number of unemployed foreign nationals slightly increased in the second half of 1978.

## 3. AGE OF UNEMPLOYED PERSONS

Although there is still some diversity in the sources of information on the age of unemployed persons registered with the public employment offices, it may be estimated that persons of less than 25 years of age accounted for around 36% of total unemployment in the Community towards the end of 1978.

This proportion, which increased steadily from 1974 to 1977, appears to have declined slightly towards the end of 1978 except in the Netherlands and Luxembourg.

The level of unemployment among young persons was higher for women than for men. In the Community as a whole, 44% of

(1) Beginning of January 1979.

unemployed women were less than 25 years old. But there are considerable differences between the various countries: the proportion of total female unemployment accounted for by young persons varied from 32% in the Federal Republic of Germany to 65% in the Netherlands, and in four Member States more than half the female unemployed were under 25.

Unemployment among elderly persons, on the other hand, shows a downward trend in all countries for which data are available. Thus in 1975 unemployed persons of more than 60 years of age still accounted for over 5% of registered unemployment in the Federal Republic of Germany, while at the end of 1978 they represented only 3.7%. In France, the trend is similar (5.6% in 1975 and barely 3% in 1978).

At the same time, the proportion of unemployed persons in the 55-59 age bracket increased between 1975 and 1978 in the Federal Republic of Germany (from 4.9% to 9.6%). In the Netherlands, the figure was 4% in 1975 and fell to 3.5% at the end of 1978.

Because of differences in the age classifications used, it is still impossible to carry out a similar analysis for the other countries.

#### 4. OCCUPATIONS OF THE MALE UNEMPLOYED

In the Federal Republic of Germany the occupations most affected by unemployment were production of metal, metal processing, engineering and associated trades, etc. In October 1978 these occupations accounted for almost 22% of total male unemployment; the proportion of male unemployment which they represent had, however, decreased since 1975 when 25% of unemployed persons were from this group of trades. About 10% of unemployed persons were warehousemen or transport workers. 8% belonged to the building trades, though in the latter category, too, there was a significant reduction in comparison with previous years.

In France, a large number of the male unemployed were from basemetals processing sector. They represented 17% of the male unemployed and the proportion for which they accounted had increased since June 1977, when it was only 15%. Handling and storage were also seriously affected (12%) though the importance of this category seems to be diminishing slightly. Construction and maintenance of buildings also accounted for about 12% of the male unemployed and clerical work for 11%.

In Italy about 20% of the male unemployed were unskilled labourers, while 19% were accounted for by the building trades and about 13% by farm work, horticulture and animal husbandry.

In the Netherlands the male occupations most affected by unemployment were clerical work and the teaching profession (16%); unemployment in this category seems to be increasing slightly. Metal workers accounted for 12% of unemployment and building workers for nearly 9%.

In Belgium, too, there was considerable unemployment among male white-collar workers, who represented 25% of male unemployment. The proportion accounted for by these occupations had considerably increased since June 1978, when it amounted to 18%. Nearly 20% of the male unemployed in Belgium were mechanics, toolmakers and electricians, while 15% were unskilled labourers.

Unskilled workers were also a major category of unemployed in Luxembourg (over 1/3 of the male unemployed) and a further quarter was accounted for by administrative and clerical staff, commercial agents and salesmen.

The classification used in the United Kingdom reveals that a very large number of male unemployed were unskilled labourers or fell into the miscellaneous occupations category (over 40%). 10% of male unemployment was accounted for by the transport operating, materials moving and storing sector and a further 10% by the processing, making, repairing (metal and electrical) sector.

In Ireland, male unemployment was largely accounted for by the agricultural occupations and fishermen (26%) and by unskilled labour (18%).

In Denmark, almost half the unemployed were unskilled workers and about 10% of male unemployment was accounted for by metal workers.

#### 5. OCCUPATIONS OF THE FEMALE UNEMPLOYED

In the Community as a whole between a quarter and a third of unemployed women had been in or were seeking administrative or clerical employment. Although the occupational classifications differ from country to country, this broad category is the most important in all countries.

In the Federal Republic of Germany, 23% of unemployed women belonged to the administrative and clerical sectors. The proportion accounted for by this category had reached 26% in 1976 and had since slightly decreased. Another important category of unemployed women comprised the distributive trades, provision of services and the like. At 15%, this category had remained at the same order of magnitude since 1975.

In France about a third of unemployed women belonged to the clerical sector. The proportion had remained fairly constant since 1975; in October 1978 it increased slightly to 36%. As in Germany, the next category in order of relative importance was that of the distributive and related trades (14%).

In Italy too, about a third of the female unemployed were clerical workers at all levels and this category appears to have been increasing in the previous two years. The next largest categories were agricultural work and unskilled labour (about 18%).

In the Netherlands about 32% of the female unemployed were white-collar workers (including the teaching profession). This category increased between June and October 1978. As in France and Germany, the distributive trades accounted for 15%.

In Belgium, the proportion of female unemployment accounted for by white-collar workers was almost 40%, and here too it had increased since June 1978. 15% of unemployed women were tailors, cutters, furriers and the like.

In Luxembourg, as in the other countries, female unemployment was concentrated among administrative and clerical staff (38%) and among unskilled workers (36%).

One-third of registered female unemployment in the United Kingdom was accounted for by clerical workers and the like, over 20% by unskilled labourers and 14% by personal service occupations (catering, cleaning, hairdressing).

In Ireland, too, a large proportion of female unemployment was accounted for by clerks, typists and book-keepers (22%). This category seems to be increasing.

In Denmark, the main categories affected were unskilled workers (27%) and commercial and clerical employees (24%). There was a slight reduction in the latter figure between June and October 1978, while there was a slight increase in the percentage accounted for by unskilled female workers.

Gul serie:

Stikprøve undersøgelse af arbejdsstyrken 1977  
ISBN 92-825-0728-9

72 sider. Format A4.  
Udgave på EN/FR. Udkommet i februar 1979.

Stikprøveundersøgelsen af arbejdsstyrken blev gennemført i foråret 1977 i Fællesskabets ni medlemsstater i henhold til Rådets forordning (EØF) nr. 2877/76 af 23. november 1976.  
I denne publikation forelægger De europæiske Fællesskabers statistiske Kontor de vigtigste resultater af denne undersøgelse, der siden 1973 regelmæssigt er blevet gennemført hvert andet år med henblik på at undarbejde sammenlignelige og harmoniserede statistikker over beskæftigelsen og arbejdsløsheden.  
De offentliggjorte data omhandler især:  
— befolkningen i private husholdninger, arbejdsstyrken og arbejdsløse fordelt efter køn og aldersgruppe,  
— personer med en beskæftigelse fordelt efter køn, erhvervsmæssig status og erhvervsgren,  
— ugentlig arbejdstid,  
— hovedgrupper af personer, der søger beskæftigelse, fordelt efter køn, årsager til arbejdsløshed, periode, i hvilken der er søgt beskæftigelse, og måden, hvorpå der søges.  
En korfattet oversigt over befolkningens vigtigste aktivitetskendetegn fordelt efter regioner findes ligeledes i denne publikation.

### Labour force sample survey 1977

ISBN 92-825-0728-9

72 pages. Format A4.

Edition EN/FR published in February 1979.

A labour force sample survey was carried out in the spring of 1977 in the nine Member States of the Community, pursuant to Council Regulation (EEC) No 2877/76 of 23 November 1976.

In this publication, the Statistical Office of the European Communities presents the main results of the survey. Similar surveys have been conducted regularly every two years (starting in 1973), with the aim of providing comparable and harmonized statistics on employment and unemployment.

The published data cover, in particular:

- the total population of private households, the labour force and unemployed persons, by sex and age group;
- employed persons by sex, occupational status and branch of activity;
- weekly working hours;
- the main group of persons seeking employment, by sex, reasons for seeking employment, duration of search and methods used.

This publication also includes summary statistics of the main characteristics of the active population by region.

Serie gialla :

Indagine per campione sulle forze di lavoro 1977  
ISBN 92-825-0728-9

72 pagine. Formato A 4.  
Edizione EN/FR

L'indagine per campione sulle forze di lavoro è stata effettuata nella primavera 1977 nei nove Stati membri della Comunità, in applicazione del Regolamento (CEE) n. 2877/76 del Consiglio del 23 novembre 1976.  
L'Istituto statistico delle Comunità europee presenta in questa pubblicazione i risultati principali di tale indagine che, dal 1973, è organizzata regolarmente ogni due anni allo scopo di predisporre statistiche comparabili e armonizzate sull'occupazione e la disoccupazione.

I dati pubblicati concernono :

- la popolazione totale delle famiglie, le forze di lavoro e i disoccupati, per sesso e gruppi di età,
  - gli occupati, per sesso, posizione nella professione e branca di attività,
  - la durata settimanale del lavoro,
  - i principali gruppi di persone in cerca d'occupazione, per sesso e secondo le circostanze, la durata e le modalità della ricerca di lavoro.
- La pubblicazione presenta inoltre una descrizione sintetica delle principali caratteristiche d'attività della popolazione per regione.
